**PURSUANT TO FLORIDA STATUTE 558.0035, AN INDIVIDUAL EMPLOYEE OR AGENT OF DONALD W. MCINTOSH ASSOCIATES, INC. MAY NOT BE HELD INDIVIDUALLY LIABLE FOR NEGLIGENCE.**

## **BASIS OF PROPOSAL AND CLIENT RESPONSIBILITIES**

Our Agreement is also based on the following conditions and limitations:

### **BASIS OF PROPOSAL**

CLIENT has performed the necessary due diligence research to confirm that the site is suitable for the intended purpose.

The CLIENT is advised that concurrency management and comprehensive plan consistency will impact the land development process. Regulations regarding concurrency and consistency vary according to governmental jurisdiction. The status of concurrency, consistency and, if applicable, vested rights must be addressed for all projects within the State of Florida. DWMA presumes the CLIENT is aware of the issues and resultant impacts described. DWMA disclaims responsibility for delays that may be encountered due to failure on the part of the CLIENT to address concurrency and consistency issues prior to initiation of Services proposed herein. DWMA is **not** responsible for changes to the approved plans that may alter the concurrency vesting status or for noncompliance on the part of the property owner with regard to the performance terms and conditions established in the vesting certificate.

DWMA will not be responsible for any circumstances, acts, errors, omissions or events, of any type, beyond its control including, without limitation, construction costs, the acts or failures to act of any governmental or judicial agency, or the existence of hazardous waste of any type associated with the Project. No Services associated with hazardous waste of any type are included in any way in this Agreement.

Without limitation, architectural, traffic engineering (e.g., studies, signalization), structural engineering (e.g., retaining walls, bridges, docks), mechanical engineering (e.g., fire pumps), fire protection engineering (e.g., dedicated fire lines beyond the point of service), electrical engineering, geotechnical engineering and testing, environmental assessment, landscape and irrigation design, non-civil utility engineering (e.g., power, gas, telephone, cable television, site lighting) and any other professional or consultant services required by CLIENT and not undertaken by DWMA, shall be retained separately by the CLIENT. **No Services are included in this Agreement other than those specifically listed herein.**

DWMA may be mandated by regulatory authorities to incorporate findings, requirements and details of design in their construction plans that are prepared by professional geotechnical engineers and not by DWMA. In doing so, DWMA assumes no responsibility or liability for the design, construction or operation of geotechnical engineering components which may include, but not be limited to, underdrains, ground stabilizers, backfills, embankments, etc. CLIENT must also recognize that some of these systems (i.e., underdrains, etc.) usually require extensive field supervision during construction and certification after construction. These systems are subject to damage by other activities during or after infrastructure

construction such as other utility installations (power, telephone, cable, gas, etc.). DWMA assumes no liability for damages to any design element caused by the improper design, construction, operation or maintenance of improvements designed by others.

DWMA, in and through its review and/or use of design and calculations prepared by others, is not responsible for or liable for error or omissions in the design and permitting services provided by others. CLIENT's consultants will provide DWMA with permission to utilize and rely upon their work product as the basis of DWMA's design. Certain elements designed by others may be shown in DWMA construction plans for context only.

DWMA's performance and work product quality is dependent upon the timely provision of services from CLIENT-selected and contracted third-party consultants, including but not limited to geotechnical engineer, environmental consultant, transportation engineer, landscape/hardscape/irrigation designer and/or legal consultant whose services, while coordinated to the extent possible, are beyond the scope of responsibility of DWMA.

If locating underground utilities is expressly included in the Services, DWMA will locate such underground utilities as may be marked by a utility locating service retained by CLIENT. DWMA shall not be liable for showing any utility lines not marked by the locating company. DWMA cannot and does not guarantee or warranty that unidentified utilities will not be encountered.

Any opinion of construction cost prepared by DWMA represents its judgment as a design professional and is supplied for the general guidance of the CLIENT only since DWMA has no control over the cost of labor and material or over competitive bidding or market conditions. DWMA does not warrant or guarantee the accuracy of such opinions.

No permit applications or negotiations with regulatory agencies or permitting authorities are included other than those specifically listed herein.

If construction services or observation of construction are included herein, the Services included by DWMA will be to conduct periodic visits and observations to determine that the Work generally conforms or will conform to the applicable contract documents in relation to DWMA's engineering Services. DWMA's Service shall not include determining, supervising, implementing, or undertaking the responsibilities of the contractor, subcontractors or others, regarding means, methods, techniques, sequences and procedures of construction, nor for job conditions, safety precautions or programs. Construction phase services for systems designed and permitted by others are not included.

Construction phase retesting resulting from failures or no-shows, and therefore requiring additional site visits, shall be additional services and is not included in the scope of this agreement. Such services will be invoiced separately on an hourly basis for back-charge to the contractor by CLIENT.

Any as-built surveys required to be performed by DWMA due to failure of contractor's surveyor to provide accurate and complete survey data will be invoiced separately on an hourly basis for back-charge to the contractor by CLIENT.

Federal Emergency Management Agency (FEMA) Map revisions or amendments which may be required by regulatory agencies or lenders are not included unless specifically listed in Basic Services.

Provision of customized digital data files to CLIENT, CLIENT's consultants and/or CLIENT's contractor is not included. DWMA work product will be prepared digitally in AutoCAD Civil3D® 2018 or later.

The CLIENT will provide DWMA with plans and other pertinent information which may be necessary to properly survey or engineer the Project.

The CLIENT will engage a professional geotechnical engineer to provide necessary hydrogeologic design support, relevant construction specifications for earthwork items and required construction inspection and certification. CLIENT's geotechnical engineer shall be responsible for final certification of all flexible and rigid pavement. DWMA has the CLIENT's authority to rely on this professional information as a basis for its design Services and certifications.

The CLIENT will engage a professional environmental consultant to provide jurisdictional determinations and necessary design and permitting support for wetland and special species issues.

The CLIENT will engage a professional environmental firm or firms who specialize in all matters relating to "hazardous" or "special" materials wastes, deposits, soils, contamination, etc., as may be required to support permitting or construction of the Project.

The CLIENT will engage a professional landscape architect to provide landscape and irrigation design related to the development of the property as intended by CLIENT.

The CLIENT will engage a professional architect to perform all architectural services including, without

limitation, incorporation of the work product of DWMA, and compliance with local, state or federal laws, regulations, codes and Americans with Disabilities Act ("ADA") requirements.

The CLIENT will engage a professional transportation consultant to provide analysis related to development of the property as intended by CLIENT, including but not limited to traffic studies, determination of turn lane requirements, traffic signal design, Maintenance of Traffic (MOT) plans and roundabout geometry, striping and signage design.

The CLIENT will engage a professional legal counselor to provide legal services related to development of the property as intended by CLIENT.

The CLIENT will engage a professional state licensed hydrogeologist for completion of hydrologic data required in support of a Consumptive Use/Water Use Permit.

The CLIENT will engage a professional archaeologist to provide archaeological analysis related to development of the property as intended by CLIENT.

The CLIENT agrees that DWMA shall have no responsibility for the accuracy of information provided by, or for any portion of the Project designed by the CLIENT or CLIENT's other consultants, or for compliance with local, state or federal ADA requirements. DWMA shall not be required to check or verify the CLIENT's or other consultants' work product, information, or construction documents and shall be entitled to rely on the accuracy and completeness thereof, as well as the compliance of such documents with applicable laws, codes, statutes, ordinances, and regulations, including, without limitation, ADA requirements. The CLIENT also agrees to require all other consultants engaged by the CLIENT to coordinate their design or construction documents or reports with the work product of DWMA, to promptly report any conflicts or inconsistencies to DWMA and to cooperate fully in the resolution of those conflicts or inconsistencies. The CLIENT further agrees, to the fullest extent permitted by law, to indemnify and hold harmless DWMA from any claims, damages, liabilities or costs, including reasonable attorney's fees and defense costs, arising out of or relating to false, inaccurate, or non-compliant information provided by CLIENT or its other consultants, or the services performed by other consultants engaged by the CLIENT.

The CLIENT or CLIENT's contractor shall obtain the required National Pollutant Discharge Elimination System (NPDES) permit for the Project.

The CLIENT will provide DWMA with all applicable operation and maintenance budgets and budget reserve estimates for all gated communities prior to submittal of the final plat to satisfy local jurisdiction requirements.
